SUMMARY

Product-minded builder with 3+ years across **full-stack engineering (MERN)**, **performance marketing** and **CPaaS (SMS, RCS, WhatsApp)**. At Zestin, ran lead-generation programs for 9 BFSI, EdTech and travel clients, delivering **18.7K+ leads, ₹34L+ revenue and ~49% gross margin**, and tracked P&L for a **₹54Cr+ messaging portfolio (900Cr+ messages, 112 enterprise clients)**. Founder of Nirvan (mynirvan.com), a live wellness app, and builder of an agentic omnichannel campaign copilot for SMS, WhatsApp and RCS. Targeting APM / AI PM roles in B2B SaaS, MarTech and fintech.

EXPERIENCE

Founder & Product Lead — Nirvan (mynirvan.com), Meditation & Wellness App — Jan 2026 – Present

- Took an emotional-wellness companion app from idea to live launch (mood tracker, breathing, sleep stories, community feed); grew it to **790+ users and 12K+ tracked events** across India, the US and Europe.
- Owned the roadmap end to end: user research, prioritisation, UX, build, release and growth.
- Set up GA4 funnel and retention tracking; found users who reached a core feature bounced **under 8%** (Explore 3.4%, Mood Tracker 3.6%) vs **~57%** on the landing page, and prioritised onboarding that routes visitors straight into features.
- Drove zero-budget acquisition via SEO, Pinterest, Facebook and Indie Hackers; **1m 36s** average engagement per user, **11%** returning users.

Performance Marketing Executive (Growth & CPaaS) — Zestin Solution Pvt. Ltd., Mohali — Nov 2025 – Sep 2026

- Owned acquisition funnels for **9 client programs** (Bajaj Housing Finance, Club Mahindra, AU Small Finance Bank, HDFC, Roinet, ZestShiksha) across Meta, Google, SMS and RCS: **18.7K+ leads, 105 conversions, ₹34L+ revenue at ~49% gross margin**.
- Cut cost per lead **45–61% below client targets** via segmentation and A/B-tested creatives (Roinet ₹19 vs ₹50; Club Mahindra ₹387 vs ₹700; EdTech Meta ₹136 vs ₹250).
- Scaled the flagship EdTech program to **17K+ leads and 94 enrolments** (**₹28L revenue, ₹17L+ margin** in 7 months); helped build its CRM for lead tracking, counsellor allocation and journey reporting.
- Built the revenue and margin MIS for a **₹54Cr+ CPaaS portfolio** (112 enterprise clients, 900Cr+ messages, 17 operator routes) with day-wise dashboards that flagged loss-making routes for repricing.
- Supported GTM for **RCS and WhatsApp Business** (33 and 45 clients); WhatsApp monthly volume grew **6.7x** (0.6M to 3.9M), Mar–Jul 2026.
- As innovation project manager, conceived and pitched an AI omnichannel campaign copilot that Zestin built into **AIcon**, its B2B AI campaign product; turned client feedback and DLT/TRAI rules into its requirements.

Digital Marketing Executive — DLS Hotels, Karnal — Oct 2024 – Nov 2025

- Grew **direct bookings 35%** in 6 months by shifting demand from OTAs to the brand site; raised conversion **2.1% → 4.3%** through CRO and A/B tests; **4.2x ROAS**.
- Ranked **15+ high-intent keywords on Google page 1** (+60% organic visibility); led a 5-person design and content team in weekly sprints.

Full Stack Engineer (MERN) — Coding Club India, Delhi (Hybrid; intern from Apr 2023) — Apr 2023 – Sep 2024

- Built React/Next.js features and Node.js/Express REST APIs with JWT auth and MongoDB, lifting **conversion 10% and engagement 30%** and cutting bounce 25%; improved page load ~30%.

PRODUCT PROJECTS & PRDS

Nexus AI — Agentic Omnichannel Campaign Copilot (WhatsApp, RCS, SMS) · Live Demo · PRD · GitHub

- One-line brief in, compliant campaign out: intent parsing, audience build, consent/DND filtering, WhatsApp→RCS→SMS routing, DLT-safe copy and TRAI send-window guard; nothing sends without marketer approval ("LLM proposes, rules decide").
- PRD covers personas, journeys, MoSCoW/RICE, success metrics and AI evals: compliance pass rate, hallucination rate, intent precision/recall, DPDP privacy.

TrackAmar — AI Student Performance Platform · Live Demo · PRD · Figma · GitHub

- Student, teacher and parent views sharing one data model (grades, remarks, tests, rewards, messages) plus a **Gemini study assistant** grounded in each student's scores; guardrails for minors' data (no names to the model, no

homework answers). Next.js, TypeScript.

Glow-Hub — At-Home Beauty Services Marketplace · Live Demo · PRD · GitHub

- Two-sided marketplace prototype: request-then-confirm booking with upfront fees, provider dashboard, chat, notifications, reviews; north star = completed bookings/week, guardrail = cancellations < 10%.

Decor-Nest — Décor Store with Measurement & Installation · Live Demo · PRD · GitHub

- E-commerce prototype bundling free measurement and installation into a 3-step checkout to cut size-related returns; PRD targets ≥ 40% service attach rate and < 3% size returns.
